

You may know different kind of harmful substance-related addictions like, tobacco, alcohol, street drugs, and prescription drugs etc., behavioral or process addictions like greed, lying, power, fame, gambling, sex, porn etc... are how harms to our life, society and mankind!!!

Like this the addiction of God beliefs also one kind of habitual behavioral addiction that harms to our human race in the name of spirituality, devotion, meditation, peace and character development when its motive is evil.

The addiction of god loving is known as Theophilia and it's harmful to our human race like other harmful addictions.

### **How?**

More than 70% of human race believe in different kind of God/Goddess/Super identities/Super powers/Supernatural power etc. according to understanding of their religious faiths.

The World Factbook gives the population as 7,095,217,980 (July 2013 est.) and the distribution of religions as Christian 33.39% (of which Roman Catholic 16.85%, Protestant 6.15%, Orthodox 3.96%, Anglican 1.26%), Muslim 22.74%, Hindu 13.8%, Buddhist 6.77%, Sikh 0.35%, Jewish 0.22%, Baha'i 0.11%, other religions 10.95%, non-religious 9.66%, atheists 2.01% (2010 est.).

According to Pew Research Center, Size of major religious groups in 2012 was: Christianity 31.5%, Islam 23.2%, Unaffiliated 16.3%, Hinduism 15.0%, Buddhism 7.1%, Folk religions 5.9%, other 0.8%, and Judaism 0.2% of our total human race population.

Whatever their ratios, but we have to admit that the human populations in our human race divided with their religious faiths that creates discriminations and social evils due to their belief of God.

### **What is God?**

God is the supreme being/superhuman/a deity/an image of a god or an idol/spirit worshipped as having power over nature or human fortunes/ being who is a creator and ruler of the universe who is even responsible of maintenance and destruction of all the existence whatever we see or can't see.

God word is also used for psychological representation of some emotions as exclamation that is used for emphasis or to express surprise, anger, distress, etc.

### **Is it really the perfect definition?**

No, it's not; it's a psychological composite emotion projecting to an identity created itself by human's mind with its specific imaginative dimensions. God believed to be real but exists only in the imagination. All religions are based on the super identity/identities/powers. It's only the reason why we found different kind of Gods or supreme identities and their definitions in our human race as per their understandings of God.

### **Theophilia**

Loving to an assumed or imaginative or prefixed imaginative or existing or non-existing super identity or identities that is not having any real relation to our realistic world without the imagination and even does not fits with the definitions they believe in is one kind of cheating to our belief system so it's one kind of deviation. It's called Theophilia (Theo=God or relating to God, Philia=unconditional love). Love addiction to god or to specific identity or identities, believed to be that has super natural powers with or without any reasons blindly with their own kind of definitions is known as Theophilia or Godphilia or Powerphilia. It's really harmful comparing to its benefits. We give blind and irrational message to our descendants and making them psychological disordered to some extent which will be more harmful with the time extension. Psychological problems due to depression or other psychological problems which cures by counseling of a psychiatrist/priest/cleric/black magician or people like this kind of profession only able to cure these psychological diseases due to the depth of their faith on a power that has been motivated by someone or self-motivated with a blind belief, which helps some extent to some humans immune system to resist or cure the diseases to some extent, but non-counseling diseases like cancer, aids, snake bites, tuberculosis, leprosy or many physical/physiological & neurological disorders and deformities etc. can't be cure by only the faith of the God; and most of the time believers die for their ignorance and foolishness.

Theophilia is a Psychological disease and its spread through the promoters of that religions. Commonly Clerics of all religions act as the Theophilia virus infecting bodies to infect majorly innocents, psychological depressed, ignorant, poor, illiterates or socioeconomically backward as their target in the human race to accomplish their hidden self-benefits. Mostly they live as predators of spirituality or as parasites practically. Any kind of knowledge can be manipulated without any Brandism or without any specific class representation. Both the followers and so called intellectual or scholar promoters of a religious belief are suffering from different kind of psychotic diseases. Extremists/Fundamentalists/Orthodox religious believers are suffering from not only Theophilia but also suffering from ASPD (Anti-social personality Disorders) those promote violence in the name of God to establish their justice to the commune or mankind. Antisocial political leaders always use religion as their instrument to unify a commune for their selfish benefits. They even use power and wile to make a commune big to control their mind and life and make handsome wealth.

More than 80% of our human race suffering from this psycho disease Theophilia even some Psychologist say it as a mass hysteria.

### **How Theophilia Spreads?**

Theophilia spreads through their preachers like religious leaders or priests or fundies or clerics or propagators or scholars or orators of that religion or simply we can say by their representatives etc... through recitation, motivation, temples/shrines or religious places, literature/scripture/moral stories and songs, media, devotional stories and songs, festivals, celebrations etc. in worse case fooling, cheating and with life threat etc... to make a commune of same belief. Maximum stories are based on false/fake facts with sweet lies/fictions with moral

values embedded in it. The truth and lies are mixed in different ratios to confuse the followers to make them realize that the facts are undeniable truth. Major Religions like Christianity, Islam and Hinduism (Vedism/Sanatan Dharma) even had implemented by shine of sword by some emperors for their selfish desires or benefits. All Major three religions of the world had forcefully implemented by the life threats and less by Motivation or peaceful ways and self-acceptance, though Buddhism and some of other famous religion has no record of forceful implementation but brand creates discriminations in the human race.

## **Demerits of Theophilia**

It prevents Theophiliacs patient thinking logically about their belief in God or super identities they believe in. Prevents them questioning about their God beliefs due to phobia that God will harm them; thinking God acts as super villain if not respected. Their sentiments change drastically to abusive and angeriness when they encountered by the demerits of their faiths. It prevents making sense in a debate with a logical person and develop boycott situation with embarrassment, anger and abusive. Theophiliacs admit everything whatever said in the name of God blindly that is said by their religious authorities without any interpretations or any kind of verifications. Theophilia make them slow or lazy logical or less rational or great irrational thinkers which ends with blind beliefs and violence in extreme. Theophiliacs most of the time seeks easy and miraculous solution for their problems due to abnormal or lazy thinking it's because Theophilia make once mind lazy and to some extent partial abnormal. Theophilia promotes innocent followers believing anything. Theophilia is also a mental blocker for anti-thinkers. Theophilia promote discriminations in human race. Theophilia in normal case act as mental deviation, in moderate case develops anger and in acute case develops violence. Theophiliacs praise to their God or Super Identity in success of their desires and blame when they got discusses in their desires or self-satisfy with a thought that it was god's wish. When Theophiliacs are get helped by science and technologies they thanks to God not to those humans those are responsible for those science. Theophiliacs patients are most of the time victimized by their cleric/priest class of their religion. Theophiliacs patients helps, developing different kind of social evils in the society and most of the times themselves are only the prime victims. Theophilia is only the major reason that make a follower to an orthodox, extremist and in last a religious criminal i.e. terrorist. Theophilia helps cunning/knave/cheater/dishonest Guru/Master/Scholar/priest/clerics/politicians/executive or representative of a religion to victimize their Theophiliacs infected followers to make a unity for their own spiritual kingdom or commune or spiritual corporate Industry that they drive their own ways as they like. They creates funds in many ways like from donation, counseling business, medication and meditation, yoga, business of other devotional articles and activities etc. and in worst case through smuggling, prostitution, robbery, drugs etc. It has been seen also Theophilia makes a disciple or a follower or a devotee in to the path of criminal activities like dishonesty, aggression or violence, perversion, rape, murder, cheating, bribery, robbery, illegal trafficking etc. and it's all done with a mask of noble image in the society through deceptions. Theophilia stops the human mind to explore beyond the God. God lovers or Theophiliacs patients are also having a phobia of God that controls their mind virtually. Theophilia interrupts human's progressive innovative factual belief system or belief system based on reality, logic or reasoning or truth. Creators of theology imagine irrational and propagate their philosophy without its verifications for their personal benefits where scientist propagate those that can be verified and challenged for its authentication without any boycotts and always have a dimension of amendments with the new findings.

## **Religion and Theophilia**

Theophilia is like an intoxication or like a virus that sick a person easily those are blank or innocent minded through addictions. Theophilia is a root element of Religion. Religion can be also compared as colorful glass, once you wear it the whole world will look like that color and Theophilia make it as a habit to their life or force

their mind to use that glass. Theophiliacs even get successes some of their desires due to only concentration to the subjects through the depth of the belief they believe in. Theophiliacs commune sometimes also socially help themselves for their fulfillment of desires to establish the glamor of the faith they believe in.

Religion is destructive and discriminative which also promotes ignorance, blind beliefs & disharmony in the name of moral education. If we had one religion then there was no problem in our human race but humans created many religions according to their understanding of life and God beliefs that is why their Philosophy and Laws contradict to each other in many forms. We are having many religions it's because no religion is perfect. It also forces some followers to choose a better religion that doesn't suits for them, which even promote conversion, reconversion and apostasy. Religion has also supported at times such practices as aggressiveness, war, cannibalism, suicide, incest, homosexuality, murder, slavery etc. and is responsible for many aberrations in social behavior. Some religions forces their followers not to change their religion by death punishment or with other cruelties. Religions separates or divides the human race. Even in a democratic country with diversities of religions gives an unstable government due to political influence over the religion and vice versa. Some religion teaches blind beliefs and irrationality and violence to run their commune. Major religions created hatred and war between people belonging to different religions. Religions created a special class of human beings (spiritual leaders/priest/propagators or any kind of religion representatives) as sociopaths whose only aim in life is to preach religion. They live like parasites in the society with lot of power and esteem and most of the times reasons for corruptions and dishonesty. These people sells their concept of God in the name of morals, divinity and peace etc. and runs the God industry. People and animals brutally sacrificed as an offering to gods in some religion only for the accomplishment of their desires. Women treated like second class citizens, or even slaves, based on religious teachings. Millions of humans and animals are tortured and killed for different kind of blind beliefs. Religion even creates another class of people those are named as extremist or even sometimes called as religious terrorist group those fights in the name of God and Religion to achieve their motives. Major religions suppress the logical/rational and critical thought. In the name of holy wars followers of different faiths or even the same faith killing to each other in the name of their (benevolent, loving and merciful) gods. Billions spent to build, maintain, and staff houses of worship i.e. for the God Industry to collect huge amount of wealth from their followers. It's even opposes to scientific progress on religious grounds. Religion promotes a race of sociopaths or con artists and business of dishonesty or cheating as priest group. Now even many so called religious scholars make spiritual slaves in different ways with their con art of spiritual speeches by victimizing their followers. We can say major spiritual leaders/priest/propagators or any kind of religion representatives from any religion are the masters of fools or ignorant or mentally deviated and innocents not the intelligent or rational people. Religion discriminate/separate the human-race and psychologically develops hates in them to those are not belongs to their commune. It develops and promotes a spiritual pride with religious criminalism and even revenge cycles to conflictive religions.

### **Some Symptoms of Theophilia**

1. They are mostly God or super identity believers. Mostly they thinks God or super identities are the controllers of all the things those they come across i.e. they think God or super identities are only creates, maintains and destroys the all creations we come across and even those that we don't know. They strongly deny the reason and creation behind the God existence. They love to listening moral and miracles motivating words that shape their belief system.
2. They easily believe whatever commanded in the name of their God by their spiritual executives/propagators/scholars or any person those represents as communicators of God or reliable favorer of God. They follow religious scriptures commands in their life as a routine life of guide blindly as undeniable truth.

3. Strongly believe in faith of God and thinks religion is only the identity where they streams from, without it they feel baseless or have no strong social identity. They often thinks religion as security guard for them where commune will stand with them when there will be any religious communal problem in their society.
4. They thinks, true faith can be achieved through the proper concentration and only in feelings.
5. Believes in magical remedies and easy solution through praying God.
6. Most of the spiritual leaders and their followers are the logic and science haters. They hates science and logic it's because they found it is a tool of knowledge that exposes truth behind any facts. They think spirituality is beyond the science and beyond human's understandings.
7. Get unstable, intolerant, irritative, abusive, angry and violent in extreme case when encountered by the demerits of their faith system. Spiritual leaders, propagators or executives often use knaving and boycotting when they don't have any proper answer for their irrational logic. They like crime to establish their stands when there is no way for suitable accomplishments.
8. Propagate the religious believe and create commune of helping environment for their same believes.
9. Take deep interest in their religious scripture with a belief that it's only the extreme-supreme.
10. Give a preference to super identity rather than practical help available to them. Even prefer helping hands from same believers rather than modern science helping available to them. Sometimes they take advantage of the modern science and thanks to their believed God.
11. Orthodox followers spend time on their spiritual exploration and routine commands explained in their scriptures. They love to use the dress, facial, body language and behavioral code of their religion. They don't verify the scriptures and blindly believe on them thinking it's from ancient or forefather's knowledge and believed to be strongly undeniable true.
12. They like to harm anything if it's written or commanded by their scriptures in the name of God.
13. They think all the good things only streams from God so following the religious scriptures of their own will make them good and every good things can be achieved by the following their holy scriptures.
14. They are blind believers of clerics of their religion. Some Theophiliacs give different kind of offers to their beloved God to accomplish their desires. Theophiliacs in acute case offers animal and human sacrifice for the accomplishment of their desires.
15. They always use all the super praising words to promote their faith system and scriptures without its verifications, which develops a super ego paranoia in their behavior.

—

**Suggestion:** It's very hard to leave any addiction that becomes a habit, religion is a habit that has been practiced hereditary. Try to admit, religion as a relic not as present faith system of human race. All holly scriptures from different religions can be taken as books like other subjects like literature, Physics, Chemistry or Math etc. as Books of theology or myth without any special importance. Denial of religion and God belief will be good for our well cultured human race but good and non-contradictory knowledge from theology scriptures can be followed for the guidance of spiritual life those like to follow spirituality without any representation of religion stream. Religion should be a private matter not a public matter. There should not be any special importance from any kind of governance in the human race to promote the theology in any kind and they must try to demolish the blind faith systems as soon as possible to making human race a place of safe place for living.
